

Spencer Bachus Voted to Send Our Jobs Overseas!

**Our Congressional district will lose 3,708 jobs
because of his vote for the Korea Free Trade Agreement**

Congressman Spencer Bachus **voted for** the Korea FTA. Korea is one of only three countries that our government has labeled a currency manipulator. The Korea FTA has no provisions to counter cheating such as currency devaluations which would totally eliminate the purported tariff cut benefits and make our exports more expensive to Koreans than they are now.

The Korea FTA would allow foreign corporations to skirt our U.S. courts and directly challenge our laws before the United Nations and other tribunals to demand compensation from our tax dollars for claimed violations of the trade pact. America shouldn't be signing trade deals that put taxpayers on the line for payouts we can't afford to corporations that offshore jobs and erode American sovereignty.
